

Grain Augers

H Series Hydraulic Scissor Lift

Model 1072

Moving the Nation's Grain...

H Series Features

All 'H' Series are Hydraulic Scissor Lift

Low Profile Hopper 66" x 41" x 11.5" with Flat Free Tires

Harvest International H Series features a low profile swing hopper intake. The intake hopper features a removable chain cover and an easy access top cover for service. The swing hopper can easily be moved to either side of auger and uses a heavy duty hand brake winch.

Our scissor lift features heavy duty construction. Designed for customer protection and peace of mind. The scissor lift also has better reach than the equivalent A frame augers. It also features heavy axle and deluxe rims with new tires.

Our H Series augers feature a heavy duty cast iron top hub with double tapered bearings. Overflow protection comes standard.

Harvest International features a convenient, easy hook up clevis hitch.

Other Features:

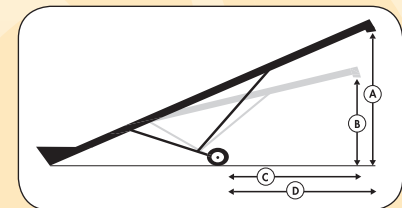

- Entire Auger Constructed with 12ga Tube
- Powder Coat Plus™
- Extended Lube Hopper/PTO Knuckles (50 hrs)
- Non-rub Cable Attachments
- Iron Edge™ Flyting - Up to 50% Thicker Edge throughout entire Auger
- Tapered Bearing Gearbox

Anti Settling Shut-off Valve
